Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 3,4, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lips. The patent discloses the claimed conventional Gregorian calendar (col. 4, lines 40ff) with 25th leap year correction as set forth in the preceding paragraph. Regarding claim 4, patentee suggests at col.5, line 52 that the first day of any month may be designated as the first day of the fiscal year.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over the U.S. Patent to Lips. The reference discloses in Fig. 4(a) and described at col. 9, lines 30ff a leap year correction scheme including adding a 25th leap year using the algorithm claimed, i.e. using the Gregorian leap year every 4th year, except every 100th year, unless the year is divisible by 400, then applying the leap year, and if divisible by 3200 not applying the leap year. The algorithm is carried out only to the year 3200, however one of ordinary skill in the art will recognize that by continuing this iteration the leap year scheme will repeat every 86,000 years, i.e. applying a leap year thereto. With respect to claim 11, the limitations recited in claim 3 define a conventional Gregorian calendar set forth in Lips at col. 4.

Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Doggett reference in view of the Lips patent. The claimed month/day calendar sequence corresponds to the known Indian calendar, more specifically described at pages 11-12. The leap year correction rules for this calendar corresponds to the Gregorian calendar and are also set forth therein. While no

specific means for performing the calendar computations are disclosed, one of ordinary skill in the art having the teaching of Doggett would be taught to implement such a calendar by suitable means, as disclosed in Lips.
